Client Partner Testimonials

"TFF restored my faith in people. Gave me the confidence to trust in my ability to be the Man I was called to be. Which led to me be a pillar in my family and community."

"I was able to secure the funds to put a roof over my head, this took away the stress from just coming back into society from a long incarceration. The fountain fund has opened my eyes to a slew of resources that I never knew existed for felons and individuals like myself who are readjusting to life after incarceration."

"I was able to obtain my drivers license again after it being suspended for 22 years. It relieved the stress of me getting arrested for driving in a suspended license trying to attend meetings and doctors appointments. "

"The fountain fund literally was a miracle for my life, and the process was prompt and painless"

"I was able to move out of an abusive situation immediately and now live independently. I was able to furnish my place immediately since I was able to pay the deposits over 12 months. A week after I moved, my kids needed a place to stay. My credit went from high 500's to almost 800, all with resources like Fountain Fund."
